## There Is Only One Phonograph In the World That Can

Truthfully Equip Your Home With the Living Voices of the World's Greatest Artists.

You no doubt have read a great many claims from needle type talking machine dealers endorsing the realism of their machines. But mark this: There is only one phonograph in the world that will positively prove the rendition of their instrument—and that is the New Edison. The final proof of superiority is that the ear should be unable to distinguish Mr. Edison's Re-Creations from the living tone. Repeatedly, before 800,000 people, the New Edison has passed this test. No other has yet dared it.

### HEAR—COMPARE

Before you make your choice, by all means hear this instrument which has aroused the admiration of the world of true music lovers. Attend a recital in our music hall. Compare the New Edison with any talking machine. Then judge.
